

Gain expertise in cybersecurity and Learn To Succeed with world-class training from TD SYNEX Academy

TD SYNEX Academy is the IT training division of TD SYNEX and an authorized **Palo Alto Networks Training Partner (ATP)** a leading cybersecurity company specializing in next-generation firewall solutions. As an authorized partner, we offer comprehensive and tailored training programs that empower individuals and organizations to maximize the potential of Palo Alto Networks technologies.

Our certified instructors bring extensive expertise and real-world experience to the training environment, ensuring participants gain practical skills and knowledge to effectively deploy, manage, and troubleshoot Palo Alto Networks' cutting-edge security solutions.

➤ **Don't miss this opportunity to minimize your security risks, protect your data and prevent cyber attacks by acquiring skills on Palo Alto Networks from TD SYNEX Academy.**

Palo Alto Networks offers a robust portfolio of cybersecurity solutions designed to provide comprehensive protection against evolving cyber threats. Their portfolio encompasses a range of products and services that address various aspects of network security, cloud security, and threat intelligence.

TD SYNEX Academy training programs are built on the official curriculum provided by Palo Alto Networks, ensuring participants receive accurate and up-to-date information on the latest cybersecurity technologies and best practices.

Our training portfolio concentrates on :

- **Network Security** – the most demanded courses where you learn how to configure, manage & troubleshoot your Palo Alto Networks firewall.
- **Security Operations** – dive into the Cortex management console and gain more from it!
- **SASE (Security Access Service Edge)** – learn how Prisma Secure Access Service Edge (SASE) helps organization to embrace cloud and how to configure it.
- **Cloud Security** – Implementation & configuration of Prisma cloud

Whether you are a cybersecurity professional seeking to enhance your skills or an organization aiming to strengthen its security posture, our Palo Alto Networks training courses cater to diverse skill levels and requirements and are available as:

- public
- private
- on-site training sessions

All of those are always available either in person or live online. For organizations with specific training needs, we provide customized training solutions tailored to address unique cybersecurity challenges and business requirements.
