

TD SYNnex Academy

# Advance your cybersecurity skills with official Palo Alto Networks Certification training

## Official curriculum

Vendor-authorized content and labs

## Certified instructors

Real-world security experience

## Europe-wide delivery

Live online or in person

TD SYNnex Academy helps customers, partners and IT professionals build the skills needed to protect today's digital environments. Our training combines **official vendor curriculum with practical instructor experience**, so participants can apply what they learn directly in real-world security scenarios.

Whether you want to **strengthen firewall expertise, improve security operations or explore identity protection**, our Palo Alto Networks learning portfolio supports different roles, skill levels and organizational needs.

## Training areas

### Network Security

Configure, manage and troubleshoot Palo Alto Networks firewall solutions and strengthen core network protection.

### Security Operations

Build knowledge around Cortex solutions and improve detection, investigation and response capabilities.

### Identity Security \*

Develop skills in identity protection, Privileged Access Management (PAM), privileged accounts and credential security.

## Flexible training for your team

Public classes

Private team sessions

On-site training

All formats are available live online or in person, depending on local availability. For organizations with specific requirements, we can also discuss customized training options and collaboration models tailored to local customer demand.

## How can we help?

To learn more about Palo Alto Networks education services, find the right course or check training availability in your country, contact TD SYNnex Academy. Our training experts will be happy to support you.

\* Identity Security refers to the former CyberArk product ranges and trainings, now positioned by Palo Alto Networks under the Idira identity security portfolio. Customers may still search for these topics under CyberArk, CyberArk training or Idira. Public schedules are still developing in some markets; please contact TD SYNnex Academy for availability and collaboration options.
