Cisco U.

Tech learning, tailored to your team.

Cisco U. subscriptions are now available for your team's training needs. In Cisco U., your team will find a learning experience with personalized recommendations, community connections, and a catalog of Cisco and Cisco-adjacent training.

Give your team the gift of expertise, then watch what they can do for your organization.

Maximize your Cisco ROI

Prepare for deployments with confidence with the latest training for Cisco products and technologies, including unlimited access to hands-on labs.

Minimize downtime with moment-of-need learning for fast answers to real-world questions.

Thrive in a complex, multi-vendor world

Find multi-vendor training all in one place with Cisco-adjacent content from AWS, Microsoft, and others through our partnership with Skillsoft.

Support diverse learning styles with diverse content types, from podcasts to tutorials to courses, to give your team a common tech vocabulary.

Streamline certification prep

Take the guesswork out of certification prep with Learning Paths that mirror exam blueprints and guide your team through the content.

Shorten study time with pre-assessments that point out areas which learners don't need to study, and post-assessments that validate what they learned.

Choose the best Cisco U. subscriptions for everyone on your team.
